

Where to go on the UdS website?

[DE link](#)

[EN link \(There isn't a good one\)](#)

What is an iTAN?

It's used to REGISTER for classes.

Where do I get my iTAN list?

You should get it within 14 days of getting your UdS email. If you do not then please contact [the support desk](#) for a new one.

How do I use my iTAN?

When you register for a class, it will ask for a SPECIFIC iTAN, put that one in. If you fail to put the correct one in over two times you will be locked out of registering for 24 hours.

There are two versions of my class when registering

Your class probably can be either 4 or 7 credits, make sure you choose the correct one when you register.

How do I know which classes I registered for?

There will be email confirmations, but you can also check on the LSF here:

To get there you need to sign into [LSF](#)

Go to Administration of exams on the left sidebar

Go to "Info on Exams (internships)" in the middle of the screen

Then click on the "info" button

The Date of my exam is not the same on here?!?

When in doubt email the professor or the TA who is in charge of your exam. I recommend looking over the first lesson discussion slides. Always take the information given by the Professor/TA over the ones listed on LSF.

How do I de-register?

Same way you would register for classes but click on the de-register button next to it.
